until they took refuge at last in their mountain fastnesses, and there died, almost to a man. I thought of those later years, when the English Edward and the English Henry carried fire and sword among them, and slaughtered thousands of their bravest and their best. And I thought, too, of how in the darkness of the night, or in the secresy of the day, perhaps these very airs had been sung, as warriors and chieftains and kings were buried amid the rocks and orags and peaks they had loved so well. These thoughts, we say were engendered, as their wild yet really under the care of Drs. until they took refuge at last in their so well. These thoughts, we say were engendered, as their wild yet really so well. These thoughts, we say were engendered, as their wild yet really sweet and manly voices arose, now soft and tender, now wild and weird now deep and impassioned, and now triumphant and startling and chanted their last requiem over their departed dead. But their voices ceased; their notes died away into whispers; their chant was ended and silence reigned. Thrilled and deeply moved, took up our dead, and the sad train moved on to its last resting place. And there, as earth was returned to earth, ashes to ashes, dust to dust their weird voices again arose, as they broke out into that triumphant anthem: "I heard a voice from heaven saying unto me, write, from henceforth blessed are the dead whe die in the Lord; even se saith the spirit, for they rest from their labers."

Softly, sweetly, like strains of angel song, their voices first arose, only to swell and increase and deepen in force, as they chanted, "Blessed are valley of the Shenandoah. A WELCH FUNERAL.

Impressive Burial Service at Virginia City.

We never have been more deeply stirred, or mere profoundly impressed, than we were at a Welch funeral a few years ago. The deceased person was a laboring man, a miner we think, but one, whe, with his kindly nature and genial ways, had drawn out the esteem and attachment of all who knew him. The funeral services were held at the Episcopal church. After the matchless burial anthem and the resurrection chapter of that liturgy were read, the Welch service of song was given. It was a wierd and a sublime chant. Six or eight men gathered around the bier, and sang as we acarcely hope to hear men sing again. Their wild and wierd notes winged their way among the arches and rafters and made them

band of killers. A coroner's jury was summoned and repaired to the ground. The scene was viewed and testimony taken. Warrants were is sued and at once the search for the offenders commenced in earnest. Sheriff Clark summoned a posse of men and went in pursuit, and also sent Deputy Choiser and John Barnett to this place to get the aid of Sheriff Meany, who also left immediately in search of the offenders, some of whom were supposed to be in this county. On Thursday evening Sheriff Meany and Deputy French returned home, bringing the information that they arrested E. G. Laird and his sen, Sam, at Mermon Bar, near Mariposa, cu Wednesday, and delivered them up to the sheriff of that county. Also, that the efficers of Mariposa had arrested Fred. Helt and Nat. Green, two others of the indians, who were also lodged in jail. It seems that the Laired idd not let the terrible transaction of which they are accused interfere with their business. After attending church on Sunday E. G. Laird came down to his first came and was a laboring the commenced and testimony taken. with their strange echoes. We have nothing is our world of song to compare with that burial chant. It seemed to be without time, without seemed to be without time, without rythm, without poetic measure, without anything saving its own peculiar melody and sweetness. And yet, its effect was magical. While the clear, strong veices of those sarnest men were raising aloft their sacred chant, the thoughts of the listners were strangely moved, and strangely stirred. My own were far away—I thought of the syentful by gone days when the Saxon Harold drove the ancestors of these very men through beg and fen;

silver, and the difficulties met with in secur-ing them, is a sure indication of their value Thus it is with a valuable medicine: Dr. Ang. Kalser's celebrated German Pulmonic Aug. Kalser's celebrated German Pulmonic clixir, through the jealousy of rivals, has met with the most bitter opposition, and apparently almost insurmountable obstacles have been thrown in its way; but its opponents might as well try to change the course of the sun, sweep back the ocean with a broom, or put out a prairie fire with a tear. THE BUSINESS OUTLOOK.

The year upon which we have just ed ought to be one of the best Western Nevada has ever had. Our ers have wintered large numbers of their own and outside stock which nsumed the surplus hay, paying good money in return. The meat ng establishment is new runsing and with a rise of a mere fraction of a cent in the California market will be sure of a good profit. The powder works will again begin their manufacture shortly paying out nearly two usand dollars a menth in the town. The Comstock is looking splendid and will doubtless open up a grand market inside of three months. Severa' large mills are talked of, many new pumps and hoisting works will be brought in and large numbers of men worked both above and below ground. Bodie promises well and its trade will drain this way. The Jones & Kinkead tunnel will strike the ledge in June, and it is believed by all, both experts and miners, that the fine body of ore on the upper levels will be richer than ever where the tunnel strikes it. Other Pyramid Lake mines promise well and are almost a "dead thing." There will be one or more mills put up there this year. Tom Julien has acres of ore in sight of Reno. He promises to build a fifteen or twenty stamp mill in the spring. Loomis his next neighbor and Poe all have hugh prospects in different places. Peavine district will be opened if the energy and hard work of Lachman and Lipman can de any good. There are rich bodies of ore there which ought to be made to work profitably. A copper mine in Lemon's valley s well. Large quantities of wood will be cut in Thomas' canyon and the mountains above Washoe by the El Dorade company. Mackey & Fair have bought an enormous tract of timber above their old werks and will extend their flumes to reach it. The lumber business on the Truckee will be better than for some years past. there. If a railroad is built to Bedie, begins to flow down hill to the rail-There will be a great effort districts. made to reclaim Spanish Springs valley by a canal from Crystal Peak. France has made a peaceful revolu tion in striking contrast to the bloody econes which have characterized for-mer changes in the government. A rest and happy advance has occur red, which we hope is perminent.
When Frenchmen can sacrifice their flery impulses for the public good.
The experience of the American Republic in 1876 and of France this year speek volumes for the capacity of the people to govern themselves.

The Pyramid Lake Indian reserva-tion should by all means be reduced in size. To compel white men to leave that whole country desolate because a handful of Piutes live within county miles of it is an unnecessary ad creet not if oppression. Divide to lake. The southeast part give to THE NORTHERN MAIL.

We are informed that our state le

tion instructing our representatives i to securing increased mail service on mail route 46267 between Reno and Willow Ranch, Cal. From the infor mation which we have of the present and the possible future of the country served by this mail route we heartily approve of the contemplated actio and commend the matter to the active attention of our congrerasional representatives. That the service is requir ed we believe, and we are of the opin ion that this route and its continuations in Oregon will soon become a great mail carrying line for all mails for the East from southern Oregon. Part of their mails now go north to the Dalles and thence by way of Portland and San Francisco; whereas, by this route they would reach Reno en their way East nearly a week sooner han they now come. From another part of the country tapped by this route the mails are sent by way of Jacksonville, Yreka, and Sacramento, and from yet another, by the way of AlRH Kmney,
Bedding and Sacramento,
GH Fogg. turas, Redding and Sacramento. None of these lines can compete with J. Masey, curs in point of distance or time for E.C. McKinney, Eastern mails to southern Oregon, H A Clawson northeastern California and northwestern Nevada. Then as a local benefit to us, there would be a great deal of Eastern travel diverted to Reno as a starting point for the East, also during winter nearly all the travel to California from the region indicated would come to Reno, this being the only road that is always open as well as most expeditious. Again our forwarding business will be largely increased so as to justify it. Redding and the Dalles our competitors for the trade from that region have each already secured daily mail service leadtoward but not penetrating it.

THE PLAGUE.

One of the prime requisites of a happy and prosperous state is a good climate. There is no doubt that the character, lives and morals of nations are affected to a controlling degree by the climate in which they live. In this respect the people of Nevada do not appreciate their good fortune. If we had a taste of yellow fever or cholera or some of the terrible epidemics which sweep over nearly every other Tickets country, we could better appreciate our good fortune. The horrers of the plague in the Russian provinces bordering on the Caspian sea are beyond the comprehension of a Nevada mind. The mines in Eastern Nevada and For centuries the countries to the east Salt Lake draw large amounts from of the Mediterranean and surrounding the Caspian and Black seas have been another to Austin and one to Tusca- the breeding places for a malignant rera or if either of the three is built it fever which swells the glands of the will be of great benefit to us and to throat and mouth and produces boils, the lumber trade. There is a popular amusement aong many of the boys of the town in which they should exercise more caution. To-day one of these juveniles turned his flipper and sent a buckshot through a fine window. Boys have your fun, but glass and people's eyes are liable to receive serious injury at your hands.

IDAHO'S CAPITAL

A Tewn as Nicely located as Beno.

This city is the capital of Idahe and the pride of the territory. She claims a population of 2000 inhabi-tants, which I have concluded to allow her rather than trouble about count-

and temperance organizations seem to be in a high state of prosperity which speaks well for the once wild and disreputable place where the bowieknife and revolver made the law. The climate is mild and very different from that I expected to see. Stock winters upon the ranges and comes into market in fine condition. Idaho is certainly one of the finest stock growing countries west of the Rocky mountains and will, ere long, reach prominence in that direction. The valleys are

of prosperity that cannot easily be surpassed. My acquaintance is yet quite limited as I have made no effort in that direction. The people are very different from those of Reno; they are cold and distant towards

A nice map of Washoe county would sell well and pay some enterprising surveyor big wages for the would not be a very difficult undertaking. A sectionized plat could be filled in with very little work in the field. The government surveys cover arly the entire county with the exnearly the entire county with the exception of the higher ranges of mountains. All the farmers could tell just where their heuses are lecated &c. The railroads are already drawn in en all the government maps, and it would be an easy task to locate the sidings and way stations. Such a mip would be very useful in many ways and would sell well. It would be a good way for some one to put in a dull summer. He could make friends money and reputation by it.

of the 14th inst., have determined to several reasons. It will cause both ber rather than trouble about counting, or quarreling with her. The town is beautifully situated and reminds one very much of Rene. The buildings are of permanent character, tastefully arranged along her wide streets that are beautifully adorned with trees which greatly add to the general appearance of the place in summer.

Wonderful Spring.

A correspondent to the Visalia Delta thus speaks of a boiling spring which dero and Les Gates creeks. An ingenieus individual has applied for the water right and has constructed a rives at 8 r. M. and departs at 9 r. M. has been discovered between the Polva clothes wringer to be run by a water wheel at one side of the spring, where it boils ever into another of clear cold water, in which the proprietor has placed a bag of indigo. The ranchers resort to the spring to do their washing. The clothes are thrown into the water, with an energetic class of people who are successfully laboring to bring into cultivation large tracts of land that grow as fine a quality of hay and grain as any country I ever saw. The greatest drawback I see to the country is that they have no railroad which is greatly needed to warrest prosperity and progress. However, the various mining districts furnish ample convenience at exerbant prices. The legislature is now in session and steps for the speedy

A GAZETTL reporter while on a visit to Surprise valley found a spring in which the inhabitants around Lake City not only do their washing but also scald their family hogs.

About 7 e'clock last evening as GAZETTE reporter was walking down Virginia street he saw a sudden explosion at the Reno Gas works. A day's proceedings of the board of deuse volume of smoke with savage county commissioners, the following flames issued from the roof and windows presenting all the elements of a

yesterday. In the evening Deputy Sheriff Isaac Chamberlain apprehend-ed the youngman Emmet with a second young man who was boisterously drunk. Ike teek both chaps into the jailer's office, but Emmet who was behind, office; but Emmet who was behind, stepped back, shut the door between himself and the sheriff and made for freedom. Chamberlain and a man by the name of Scott gave pursuit and overtook Jones near the house of and overtook Jones near the house of one Smith. The race was one of unusual nterest but too one-sided, Jones, should be ashamed of himself, since he had thirty or forty yards the start of the fleet-footed deputy sheriff. This morning Chief of Police J. Court of Virginia City, in company with a lame officer from the same village, called upon Mr. Jones and this afternson escorted him to the Storey county jail. James, it will be remembered, was several times arrested in Reno for petit larceny. The present indications are that he will soon be under the care of Warden Batterman.

Regarding the reported danger of nother outbreak of the Indians in the vicinity of camps Harney and Bid-well there is needless apprehension. The facts are that at the conclusion give several beautiful prizes to those appearing in the best costume and who sustain their respective characters of the Bannocks war some thirty or best. This is an excellent idea, for forty of the Bannocks went to camp Bidwell and mixing with the friendly Piutes there drew rations for a time. This winter they were gathered together and sent to Harney and from there they were being sent to a reservation but on the way made their escape from the troops having them is charge and are still at large. They have, however, committed no hostilities, and apparently are only striving to avoid confinement to a reservation. A party of seldiers from Bidwell is out in search of them, it being supposed that they may have returned to that vicinity.

Mr. Sturdevant, a rancher in from Big valley, Modec county, reports the farming and stock interests of that From the northern countries large suppplies of grain and cattle find in Reno a shipping point and it is indeed gratifying to know that the present year's supply will be as large if not larges than that of last year.

Let it Concern All. Who is there that can say "I am under obli gations to no one?" The young man just en tering business life owes to the home in which he was nurtured and educated, to the parents who have supported him, and to the younger members of the family who have been denied luxuries to make his advancement sure. At middle age the necessity for insuring life increases with his responsibility. If in health, creases with his responsibility. If in health, his first outy should be to attend to it. Unhealthy lives are net insured. Insure while you are in an insurable condition. Every day brings with it the possibility of some cause which will forever bar insurance. Let not the father of a family suffer the opportunity to pass without embracing it. He owes it to his wife, to his children and to the State. This is a pure barley and wheat spirit, remarkable in fragrant others, which impart a delicate arous, at the same time greatly increasing its value as a diffusive attinuiant. The solid residue contains a large amount of tannin, derived from storing in oak casks, which imparts to fine old valuely one of its valuable indivisical qualities. The amount of the residue powers the whicky to be fire from the excessive coloring and sweetening so generally used in adulterating. In fact, in two words, it is the PUREST WHISKY, and will not only supply a public want, now that whiskies are so generally adulterated, but will be of the greatest value to the physician in those numerous cases where pure whiskies are the most useful of all medicine.

Dr. Mintie's Nephreticum.

Dr. MINTIE'S NEPHRETICUM works wonders. In all cases of Droppy, Bright's Disease, Kidney, Bladder and Urinary Complaints, or Retention of Urine, these troubles are entirely cured by the Nephreticum. Female Weakness, Gravel, Disbetes, pain in the back side and loin are cured when all other medicines have failed.

See what the Draggists of Portland and San Francisco sav about Dr. Mintie's Nephreticum and English Dandellon Pills;

"We have sold a large amount of Dr. Mintie's medicines; the English Dandellon Pills; also the Nephreticum, and in all cases they are highly spoken of and give entire satisfaction."

John A. Childs, Druggist, Second street Portland.
